# THINGS TO KNOW

## What is the minimum and maximum group numbers required/allowed?

All our booked tour packages have a minimum requirement of 20 paying children. We have a maximum group number of 120 paying children and large groups like this, will be split into smaller sub groups during your visit.

## Does my deposit go towards my booking?

Yes, your deposit is taken off your payment on the day. It is non-refundable within four weeks of cancellation, refer to your Booking Confirmation.

## What happens if it is raining?

All of our activities still run when it is raining. Contact us at least 24 hours before your booking if you are considering not going ahead because of the weather and we can reschedule you (subject to availability). We recommend in the winter to let your guests know to prepare for cold and rain – so bring rain jackets and covered shoes/gumboots. The kiddies love the day regardless!

## How long will my tour take?

This is dependent on your total numbers, how busy we are with public on the day and if/when you are wanting to have breaks.

As an estimate, a group of 20 pax would complete all the activities **once** with the Farmer in approximately 1.15 hours. A group up to 60 pax would take approximately up to 1.5 hours and a group up to 100 pax would take approximately up to 2 hours. Groups are welcome to make use of the barn in between and after their tour to have their lunch.

# THINGS TO KNOW

## Are your ratio numbers a compulsory supervision requirement?

No, our ratio numbers that we provide being 1:3 Preschools/Kindergartens and 1:4 for Schools/Holiday Programmes are not a requirement that we need you to adhere by for supervision purposes. Your company must comply with your specific adult to child safety ratios during your visit here. Our ratios are based on pricing schedule. So, for a 1:3 ratio, this means you receive 1 adult free per every 3 paying children etc.

## We are a large group, how will my tour run?

We like to keep our group sizes small and manageable to ensure the children receive adequate one on one time and reduced wait times for the activities.

Large group numbers will be split into smaller sub groups. We like to keep each group ideally under 20 children.

So, if your group is for example, 80 children, we would split you into 4 groups.

Our Farmers can do this on the day when you arrive, or you can arrange your own sub groups prior to your arrival. If this is your preference, please check with Reception when making the booking as to how many we will split your group numbers into.

THANK YOU,  
WE LOOK FORWARD TO SEEING YOU AGAIN
